PRESS RELEASE

Energy Statistics, November 2023

23.01.2024
The Kosovo Agency of Statistics (KAS) has released the "Energy Statistics" for the month of November 2023 with data on the production and consumption of coal, the production and consumption of energy, the import and export of energy as well as the import and export of other energy sources.

Electricity consumption has increased in November 2023 compared to November 2022

During the month of November 2023, the available gross electricity was 648.95 GWh, while the electricity consumption was 432.84 GWh or 5.49% more than in the same month of the previous year.

The share of alternative electricity in the total consumption was 18.75%.

Coal production was about 5.06 thousand tons, or 16.04% less than in the same month of the previous year.

Overview of production, consumption and ratio of electricity in November 2023 to November 2022

MWH	11-2022	11-2023	XI 2023 / XI 2022 %
Gross production from power plants	531,340	522,780	-1.61%
Gross production from hydropower plants	21,214	29,170	37.50%
Gross production from wind and solar	38,623	51,998	34.63%
Import	220,117	243,327	10.54%
Export	194,671	198,320	1.87%
Gross electricity available	**616,622**	**648,955**	**5.24%**
Household	248,637	259,634	4.42%
Commercial	97,222	104,481	7.47%
Industry	42,857	47,150	10.02%
Public lighting and other	3,627	3,954	9.01%
Consumers 220-110kv	8,855	9,527	7.59%
Mining	9,108	8,090	-11.18%
Electricity consumption	**410,306**	**432,836**	**5.49%**

Structure of electricity consumption in November 2023
